# School Accountability Report Card Reported for School Year 2009-10 Published During 2010-11 

The School Accountability Report Card (SARC), which is required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available on the California Department of Education (CDE) SARC Web page at http://www.cde.ca.gov/ta/ac/sa/. For additional information about the school, parents and community members should contact the school principal or the district office.

## I. Data and Access

## DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at http://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners).

## Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2009-10)
This section provides information about the school, its programs and its goals.

Willows High School is a four-year comprehensive high school. It is located in Glenn County in the Northern Sacramento Valley. Willows High School is one of four schools in the Willows Unified School District with an average enrollment of 500.

Willows High School was granted a six-year accreditation in 2006 and prides itself in preparing students for several different avenues beyond high school. On the average, $40 \%$ of each class over the last five years took the SAT and $19 \%$ took the ACT as part of their preparation for higher education; the many Career Technical Education Programs offered at the school provides students options for vocational pathways.

There is a full slate of athletic teams from freshmen sports to varsity sports for both males and females to participate in at Willows High School. These include football, volleyball, swimming, tennis, basketball, wrestling, soccer, track, golf, baseball and softball. The high school is a member of the Sacramento Valley League under the direction of the Northern Section of the California Interscholastic Federation. In addition to the athletics program, there are clubs and leadership organizations such as Cultural Awareness Club, Friday Night Live, Future Farmers of America, California Scholastic Federation, Willows High Music Club, Key Club, Academic Decathlon, Spanish Club, and the Creative Writer's Club. During the past six years, we have also had a Recycling Club, French Club, Christian Club, and Chess Club as the interest in these areas has grown.

In a recent parent survey, the parents indicated they feel a sense of involvement, feel welcome and they support the school and its goals. There are two active parent/community support organizations, the Music Boosters and the Willows High School Boosters. Both organizations provide invaluable assistance in the operation of the athletic, academic and music programs. Each year the Willows High Boosters' clubs donate approximately $\$ 20,000$ annually to those programs. Also, each year the parents of the seniors organize a Sober Grad Night. In addition, there are many organizations and service clubs that provide scholarships and educational grants to our deserving graduating seniors. We continue to improve and upgrade our access to the world of knowledge via computer technology and the Internet for our staff and students. We are preparing to meet the challenge of our changing local student population and the curricular changes that are being implemented by the school board, the State Department of Education and the Governor. We are committed to providing the best education possible for all our students in a safe, inviting atmosphere designed with our students' success in mind.

## Types of Services Funded (Fiscal Year 2009-10)

This section provides information about the programs and supplemental services that are provided at the school through either categorical funds or other sources.

We are required to report financial data from the 2008-09 school year by the California Department of Education. More recent financial data is available on request from the district office.

## Spending per Student:

To make comparisons possible across schools and districts of varying sizes, we first report our overall spending per student. We base our calculations on our average daily attendance (ADA) for the 2008-09 school year.

We've broken down expenditures by the type of funds used to pay for them. Unrestricted funds can be used for any lawful purpose. Restricted funds, however, must be spent for specific purposes set out by legal requirements or the donor. Examples include funding for instructional materials, economic impact aid, and teacher and principal training funds.

Next to the figures for the district and state averages, we show the percentage by which the school's spending varies from the district and state averages. For example, we calculate the school's variance from the district average using this formula:

Teacher and Administrative Salaries (Fiscal Year 2008-09)
This table displays district salaries for teachers, principals, and superintendents, and compares these figures to the state averages for districts of the same type and size. The table also displays teacher and administrative salaries as a percent of a district's budget, and compares these figures to the state averages for districts of the same type and size based on the salary schedule. Detailed information regarding salaries may be found on the CDE Certificated Salaries \& Benefits Web page at http://www.cde.ca.gov/ds/fd/cs/.

## IX. Student Performance

## Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CSTs); the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The CSTs show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and ten through eleven. The CAPA includes ELA, mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations. The CMA includes ELA for grades three through eight and science in grades five and eight and is an alternate assessment that is based on modified achievement standards. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations. Student scores are reported as performance levels. Detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, can be found on the CDE Standardized Testing and Reporting (STAR) Results Web site at http://star.cde.ca.gov. Program information regarding the STAR Program can be found in the Explaining 2009 STAR Program Summary Results to the Public guide at http://www.cde.ca.gov/ta/tg/sr/documents/pkt5intrpts09.pdf.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

## California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade ten results of this exam are also used to establish the percentages of students at three proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics in order to compute Adequate Yearly Progress (AYP) designations as required by the federal NCLB Act of 2001. Detailed information regarding CAHSEE results can be found at the CDE California High School Exit Examination (CAHSEE) Web site at http://cahsee.cde.ca.gov/. Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

## California Physical Fitness Test Results (School Year 2009-10)

The California Physical Fitness Test is administered to students in grades five, seven, and nine only. This table displays by grade level the percent of students meeting the fitness standards for the most recent testing period. Detailed information regarding this test, and comparisons of a school's test results to the district and state levels, may be found on the CDE Physical Fitness Testing Web page at http://www.cde.ca.gov/ta/tg/pf/. Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

| Grade <br> Level | Percent of Students Meeting Fitness Standards |  |  |
| :---: | :---: | :---: | :---: |
|  | Four of Six Standards | Five of Six Standards | Six of Six Standards |
| 9 | 80.6 | 54.0 | 29.0 |

## X. Accountability

## Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800 . Detailed information about the API can be found at the CDE Academic Performance Index (API) Web page at http://www.cde.ca.gov/ta/ac/ap/.

## Academic Performance Index Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

| API Rank | 2007 | 2008 | 2009 |
| :--- | :---: | :---: | :---: | :---: |
| Statewide | 7 | 6 | 5 |
| Similar Schools | 8 | 4 | 2 |

## Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Adequate Yearly Progress (AYP) Web page at http://www.cde.ca.gov/ta/ac/ay/.

## Adequate Yearly Progress Overall and by Criteria (School Year 2009-10)

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

## Federal Intervention Program (School Year 2010-11)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the CDE Adequate Yearly Progress (AYP) Web page at http://www.cde.ca.gov/ta/ac/ay/.

| Indicator | School | District |

## XI. School Completion and Postsecondary Preparation

## Admission Requirements for California's Public Universities

## University of California

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements please visit the General Admissions Information Web page at http://www.universityofcalifornia.edu/admissions/general.html.

## California State University

Admission requirements for the California State University (CSU) use three factors to determine eligibility. They are specific high school courses; grades in specified courses and test scores; and graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses utilize local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For general admissions requirements please visit the California State University Web page at
http://www.calstate.edu/SAS/admreq.shtml.

## Dropout Rate and Graduation Rate

## XII. Instructional Planning and Scheduling

## Professional Development

This section provides information on the annual number of school days dedicated to staff development for the most recent three-year period.

[^0]
[^0]:    Teachers take time each year to improve their teaching skills and to extend their knowledge of the subjects they teach. Time is set aside each year for their continuing education and professional development: Five in-service days are scheduled with additional staff meetings to discuss and implement the direction for addressing standards, common assessments, and overall student performance based on prior years CST and CAHSEE scores.
