2010-11 SECOND INTERIM MULTIYEAR ASSUMPTIONS

We are following the recommendations provided by School Services (SSC) utilizing their suggested dashboard.

For both unrestricted and restricted, we have created QSS models for both 2011/12 and 2012/13 for projection purposes. The models are used as the basis for multiyear projections and will be updated throughout the year as information is known from various funding streams, updated projections from School Services, Governor's budget along with the May revise, position control refinement and authorized Board actions resulting in our 2011/12 model becoming the Adopted budget for Willows Unified School District for fiscal year 2011/12.

REVENUES:

Revenue Limit (Object 8010-8099): Projected year totals for 2010/11 include the funded negative cola of .39% and the restorations of the deficit of 17.963% as opposed to the 18.355% + 2.85% that was advised in the 2009/10 Governor's May Revision. As recommended by SSC, no Cola for 2011/12 (thus the deficit rose to 19.608%) and a 1.80% increase for 2012/13 (no corresponding increase to deficit). No Cola for 2011/12 results in a loss of approximately \$166,000 in revenue. We budgeted for an additional loss of potentially \$330 per ADA ongoing revenue limit cut in both 2011/12 and 2012/13 equaling approximately a 5.38% reduction. The figure is approximately a \$527,000 loss of revenue for 2011/12. Because we have declining enrollment, we have projected that we will have further losses in ADA. We are estimating funded ADA of 1,510 for 2011/12 (ADA projected from 2010/11) and 1,444 for 2012/13 (ADA projected from 2011/12). The change in ADA from First Interim for 2012/13 is based on closure of WCHS and loss of all students. This will be re-calculated once we have actual data in 2011/12 to use as projections. No other assumptions are within our ADA projections for Second Interim.

Federal Revenues (Object 8100-8299): The 2010/11 projected budget includes carryover (deferred revenue and unappropriated from prior year) whereas 2011/12 and 2012/13 accounts only for current year estimates except for a limited amount of Federal Jobs Funding and Title I funding which we have budgeted as carryover into 2011/12. Funds for 2012/13 do not reflect any additional one-time federal funding. Using prior year resources to support out year ongoing costs may result in having to restructure programs to continue this practice. The 2012/13 does include a limited amount of MAA receipts to account for operational costs and 2011/12 has been budgeted based on what is anticipated to be claimed and earned from 2009/10 and 2010/11 time surveys.

State Revenues (Object 8300-8599): The 2010/11 projected budget includes carryover (deferred revenue and unappropriated from prior year) whereas 2011/12 and 2012/13 accounts only for current year estimates. It is not currently budgeted in 2011/12, but there is restricted designation in 2010/11 for restricted lottery to be appropriated into the budget after year end close out to fund instructional materials. The Governor's January budget proposal includes the continuance of K-3 Class Size Reduction funding, therefore in our multiyear that information has been restored as compared to First Interim for 2012/13.

Local Revenues (Object 8600-8799): Overall about the same throughout the multiyear. We will need to reevaluate as actual revenue receipts come in to determine if budget is over or understated. Projected includes some one-time funding that will no longer be available into the multiyear.

Other Financing Sources (Object 8900-8999): Funding for 2012/13 increases by the amount needed from Fund 17 Special Reserve for one-time only funding transfers in the amount of \$494,443 to balance the budget.

EXPENDITURES:

Certificated & Classified Salary & Employee Benefits (Object 1000-3999): The 2010/11 salaries and fringe were updated based on position control (outside of financial system) and reflect any changes since First Interim.

The 2011/12 projection reflects the Board's approval of the current "cut" list which includes the reduction of certificated teaching staff (attrition has been factored in), reduction of WCHS staff, and classified staff supported by general fund. Step and column has been factored in at roughly .7% and since furloughs have not been negotiated, they have been re-instated for 2011/12 and 2012/13.

The last of the Federal Jobs Funding will be exhausted after 2011/12; therefore, temporary positions restored in 2010/11 and 2011/12 may need to be eliminated. For 2012/13, as with all categorical funding, we may need to reduce the workforce if funding is determined not adequate to support those positions, to be determined in the future as more information is known. At this time, the assumption is that it will be classified positions and work reduction for certificated positions.

Books and Supplies & Services and Other Operating Expenditures (Object 4000-5999): The 2010/11 reflects carryover and the multiyear reflect current year with the exception of planned usage of carryover for instructional materials purchases under restricted resource codes. There have been slight revisions to various categoricals to realign to current year awards. Because of the current economic environment we continue to be on a spending freeze only for essential and emergency expenditures. This will hold true within the multiyear until the state fully funds schools. Various reductions have been made due to the "cut" list, such as reduction of fingerprinting, operational costs associated with WCHS and other misc. changes. The 2012/13 4000-4999 significantly changed from First Interim due to the change in CSR and we will be able to continue to support it using Title II transfer to CSR, therefore not available for other expenditures.

Capital Outlay (Object 6000-6999): The only capital outlay will be budgeted if it becomes essential and/or funded from outside restricted resources.

Other Outgo (Object 7100-7299 & 7400-7499): The 2010/11 may be overstated based on what has been provided by the SELPA as an estimate for this year and will be realigned. This realignment will take place after the final SELPA projection is provided in April/May. This year includes the final ARRA IDEA offset. The 2011/12 and 2012/13 excess costs will increase due to the one-time utilization of ARRA

IDEA funding being exhausted after 2010/11. Once we have multiyear projections from the SELPA, we may need to revise our multiyear excess cost estimates.

Indirect (Object 7300-7399): The 2010/11 rate is at 8.6% and for 2011/12 will increase to 9.61%. Indirect for cafeteria as determined by the State remains at 4.52%.

Other Financing Uses (Object 7600-7699): Out years anticipate a slight increased contribution to Cafeteria.

FUND BALANCE:

Components of Ending Fund Balance (Objects 9700-9799):

A. The 2010-11 Second Interim Fund 01 General Fund multiyear, form MYPI provides information that will be discussed below (Refer to 2010-11 Second Interim General Fund, Multiyear Projections, Unrestricted/Restricted, pages 2, Column A, C, E, Lines D 1-3).

Fund balance reserves objects 9710-9740 in unrestricted is for cash in other banks to account for revolving and clearing accounts. Restricted would be for Restricted Lottery RS 6300 set aside for future instructional materials purchases (object 9740- Legally Restricted).

Object 9770 Designated for Economic Uncertainties is the amount we should have available to meet our 3% reserve requirement. For the 2010/11 Projected Year Totals, we have \$299,350.78 from General Fund and the balance of our requirement is being met via Fund 17 Special Reserve in the amount of \$690,169.34 (excluding designation for due back to Fund 20 Post Retirement). Total undesignated available reserves are in the amount of \$989,520.12 (refer to Fund 01, MYPI, page 2, Column A, line E) at 7.70%. In fiscal year 2011/12, (Refer to Fund 01, MYPI, page 2, Column C, line E) our total available reserves without designations is at 6.20% and this includes \$6,597.76 from General Fund and balance from Fund 17 (excluding designation for due back to Fund 20). In 2012/13 is at 3% with zero available from General Fund and balance from Fund 17 (excluding designation for due back to Fund 20).

Other designations, object 9780, 2010/11 Projected Year Totals Unrestricted have been established to set aside for CAHSEE, instructional materials, vacation liability, and bus replacement/retrofit match to ensure we can provide those supplies and/or services in the current year, 2011/12 and 2012/13. Restricted designations are for deferred maintenance. However, in 2012/13 due to deficit spending in unrestricted, we will be absorbing the designated amounts unless we reduce deficit spending or draw from one-time sources such as Fund 17 in order to maintain those set asides. In the multiyear for restricted, it reflects restricted lottery RS 6300 being appropriated into 2011/12 to meet our primary instructional materials needs with the remaining balance reserved for Deferred Maintenance, RS 9205, that can be used beyond 2012/13.

B. The 2010-11 Second Interim Fund 17 Special Reserve multiyear refer to Fund 17 Special Reserve Multiyear, Unrestricted/Restricted , form MYPIO. It provides additional information that will be

discussed below. Even though providing multiyear for all other funds is optional, we provide the multiyear for all funds to ensure we have a comprehensive and transparent financial plan for added information benefiting all stakeholders.

Fund 17 reserves do more than meet our DEU requirements. Along with other funds, it provides for cash flow needs for the District to borrow internally to serve as cash float as the State continues to defer cash payments due. The purpose of a DEU requirement is not only to be compliant and pass our various reporting requirements, but to serve as "what if" we have a short fall, midyear cuts, and/or any other number of possibilities that can happen during the course of the current year. Additionally, we have used this fund to balance the current and multiyear budgets, adjusting to changes in revenue projections and/or expenditure changes. It is strongly recommended not to depend on the minimum requirement of 3% but actually increase reserve levels during these fiscally economically unstable times due to the State's fiscal crisis and the uncertainty of time needed for overall economic recovery. Our District is very vulnerable to these many variables and needs to maintain if at all possible our current level of reserve to be used as our ebb and flow of multiyear budgeting.

In Fund 17 for 2010/11 Projected Year Totals (Refer to Fund 17, MYPIO, column A, line D), we have a projected ending balance of \$1,190,169.34 with a designation of \$500,000 as due back to Fund 20. The balance in Fund 17 outside of Fund 20 designation comes from one-time transfers due to our ability to sweep prior year categorical balances. It is the desire of the District to restore some of those programs and/or use for one-time expenditures in the event the economy improves such that revenues and expenditures are stable and predictable.

In regards to Fund 17 for 2011/2012 we continue to designate the \$500,000 as due to Fund 20 and have a projected ending balance of \$1,192,169.34. However, if the State's adopted budget should prove to take on one of the worse case scenarios (greater loss than the \$349 per ADA within Second Interim projections), we would be obligated to use this one-time source to balance the budget to support ongoing costs and could immediately change the financial condition of our out years.

Fiscal year 2012/13 projected ending balance would be at \$700,226. This is because in order to balance General Fund, a one-time transfer would be needed to support ongoing costs. We would continue to meet our DEU minimum requirement; however that would be because our designation of \$500,000 would require us to lower it to \$369,071, thus freeing the balance to meet reserve requirements. Additionally, in 2012/13, General Fund designations would be absorbed to balance the budget. If the need is not to absorb those designations, then an additional \$251,680 would have to be transferred from Fund 17 for a total transfer of \$746,123. This would leave a balance of \$117,391 due back to Fund 20 versus the \$500,000 originally transferred and meet our minimum 3% of \$331,155.

Our next reporting cycle, that of budget adoption in June, we will be required to include 2013/14 and required to maintain 3% reserve level to have an adoptable budget. Using and/or exhausting our reserves from Fund 17 to balance 2012/13 will make it difficult to show a positive status for 2013/14 during the adoption process. At first blush assuming no change in expenditures or revenues from 2012/13 (Not realistic as we would need to take declining enrollment into account along with step and

column increases to expenditures, along with CPI adjustments), we would need to absorb all of Fund 17 to balance (designation due to Fund 20 would be eliminated) and close out Fund 20 leaving a balance of approximately \$165,000 in General Fund to meet our DEU for 2013/14 at roughly 1.9%. This could seriously impact our internal cash borrowing for 2013/14 by not having these two funds available along with not meeting our 3% minimum DEU requirement or any variables that could happen when 2011/12 becomes our current year budget.

THE FUTURE:

We cannot wait and see what the legislatures and/or tax payers will do as we need to have a plan of action in place if what the Governor has proposed does not come to pass. We can at this time have a range of revenue reductions from as low as \$19 per ADA (everything goes as proposed), to \$330, to \$620 to \$1,000 being coined "Doomsday". For us that equals a loss of \$29,000, \$527,000, \$936,000 to \$1,500,000 respectively. Recently the LAO indicated if the tax doesn't pass it could be around \$800 per ADA equaling \$1,200,000. Not only is this difficult to conceive of or plan for, but difficult to budget for within reports such as Second Interim, Third Interim and 2011/12 Budget Adoption that require definitive assumptions. The Second Interim is using SSC's recommendation of \$330 + \$19 per ADA coupled with the most recent Board approved cut list. It affords the District with an adoptable budget but tremendous difficulty from an operational and academic aspect. It will result in significant challenges for all staff to address in the coming year to meet the needs of our stakeholders, all students of Willows Unified School District. Ending on a positive note, we are confident as stated in our mission statement, WUSD staff are ready to "Preparing today's students for tomorrow's Challenges" despite the challenges we face to achieve that mission.

Other Adjustments Certificated: Restore five furlough days, also categorically funded teaching FTE back to general fund; 12/13 reduction in categorical due to funding constraints (reduction is days). Other adjustments Classified: Restore five furlough days, also categorically funded classified positions reduced in 12/13 based on available funding. At this time, it is assumed in 12/13 loss of library/media and Aide 1 positions due to no longer having Federal Jobs funding. In 2011-12, the deficit of \$89,000 is planned as we intend on using restricted lottery prior year balance to fund instructional materials.

Provide methodology and assumptions used to estimate ADA, enrollment, revenues, expenditures, reserves and fund balance, and multiyear commitments (including cost-of-living adjustments).

Deviations from the standards must be explained and may affect the interim certification.

CRITERIA AND STANDARDS

1. CRITERION: Average Daily Attendance

STANDARD: Funded average daily attendance (ADA) for any of the current fiscal year or two subsequent fiscal years has not changed by more than two percent since first interim projections.

District's ADA Standard Percentage Range: -2.0% to +2.0%

1A. Calculating the District's ADA Variances

DATA ENTRY: First Interim data that exist will be extracted; otherwise enter data into the first column for all fiscal years. Second Interim Projected Year Totals data for Current Year are extracted. If Second Interim Form MYPI exists, Projected Year Totals data will be extracted for the two subsequent years; if not, enter data into the second column.

Fiscal Year	Revenue Limit (Funded) ADA		Percent Change	Status
	First Interim	Second Interim		
	Projected Year Totals (Form 01CSI, Item 1A)	Projected Year Totals (Form RLI, Line 5b) (Form MYPI, Unrestricted, A1b)		
Current Year (2010-11)	1,607.67	1,607.67	0.0%	Met
1st Subsequent Year (2011-12)	1,500.59	1,509.59	0.6%	Met
2nd Subsequent Year (2012-13)	1,474.25	1,443.88	-2.1%	Not Met

1B. Comparison of District ADA to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - The projected change since first interim projections for funded ADA exceeds two percent in any of the current year or two subsequent fiscal years. Provide reasons why the change(s) exceed the standard, a description of the methods and assumptions used in projecting funded ADA, and what changes will be made to improve the accuracy of projections in this area.

Explanation:
(required if NOT met)

2012-13 year due to the potential closure of Willows Community High School, assumption is we will lose 100% of ADA/Enrollment for that particular school site. Will have to modify and revise as that information becomes known. 2011-12 ADA will not be impacted by that closure as we are funded based on prior year ADA due to continued declining enrollment.

2. CRITERION: Enrollment

STANDARD: Projected enrollment for any of the current fiscal year or two subsequent fiscal years has not changed by more than two percent since first interim projections.

District's Enrollment Standard Percentage Range: -2.0% to +2.0%

2A. Calculating the District's Enrollment Variances

DATA ENTRY: First Interim data that exist will be extracted; otherwise, enter data into the first column for all fiscal years. Enter data in the second column for all fiscal years.

Fiscal Year	Enrollment		Percent Change	Status
	First Interim (Form 01CSI, Item 2A)	Second Interim CBEDS/Projected		
Current Year (2010-11)	1,595	1,558	-2.3%	Not Met
1st Subsequent Year (2011-12)	1,567	1,503	-4.1%	Not Met
2nd Subsequent Year (2012-13)	1,535	1,464	-4.6%	Not Met

2B. Comparison of District Enrollment to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - Enrollment projections have changed since first interim projections by more than two percent in any of the current year or two subsequent fiscal years. Provide reasons why the change(s) exceed the standard, a description of the methods and assumptions used in projecting enrollment, and what changes will be made to improve the accuracy of projections in this area.

Explanation:
(required if NOT met)

Current year reflects CAL PADS data. Significant reduction in enrollment due to implementation of classroom based Glenn County Office of Education's Charter School for K-5th grade. Out years reflect continued decrease in enrollment due to many factors, such as continued declining enrollment due to the economy, charter continuing to retain those students already gone from current year and loss of enrollment is also reflective of WCHS student loss.

3. CRITERION: ADA to Enrollment

STANDARD: Projected second period (P-2) average daily attendance (ADA) to enrollment ratio for any of the current fiscal year or two subsequent fiscal years has not increased from the historical average ratio from the three prior fiscal years by more than one half of one percent (0.5%).

3A. Calculating the District's ADA to Enrollment Standard

DATA ENTRY: Unaudited Actuals data that exist will be extracted into the P-2 ADA column for the First Prior Year; otherwise, enter First Prior Year data. P-2 ADA for the second and third prior years are preloaded. First Interim data that exist will be extracted into the Enrollment column; otherwise, enter Enrollment data for all fiscal years.

Fiscal Year	P-2 ADA Unaudited Actuals (Form A, Lines 3, 6, and 25)	Enrollment CBEDS Actual (Form 01CSI, Item 3A)	Historical Ratio of ADA to Enrollment
Third Prior Year (2007-08)	1,641	1,783	92.0%

First Prior Year (2009-10)	1,602	1,719	93.2%
		Historical Average Ratio:	93.5%
		District's ADA to Enrollment Standard (historical average ratio plus 0.5%):	94.0%

3B. Calculating the District's Projected Ratio of ADA to Enrollment

DATA ENTRY: If Form MYPI exists, Estimated P-2 ADA data for the two subsequent years will be extracted; if not, enter Estimated P-2 ADA data in the first column. All other data are extracted.

Fiscal Year	Estimated P-2 ADA (Form AI, Lines 1-4 and 22) (Form MYPI, Line F2)	Enrollment CBEDS/Projected (Criterion 2, Item 2A)	Ratio of ADA to Enrollment	Status
Current Year (2010-11)	1,495	1,558	96.0%	Not Met
1st Subsequent Year (2011-12)	1,456	1,503	96.9%	Not Met
2nd Subsequent Year (2012-13)	1,412	1,464	96.4%	Not Met

3C. Comparison of District ADA to Enrollment Ratio to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. **STANDARD NOT MET** - Projected P-2 ADA to enrollment ratio exceeds the standard in any of the current year or two subsequent fiscal years. Provide reasons why the projected ratio exceeds the district's historical average ratio by more than 0.5%.

Explanation:
(required if NOT met)

Enrollment and ADA projections are formula driven based. Enrollment is averaged by year and then averaged again to come up with as close to a historically based projection. ADA is based on averaging past data and using the averaged enrollment data. Without alternative ed, most at risk students, overall enrollment to ADA could improve.

4. CRITERION: Revenue Limit

STANDARD: Projected revenue limit for any of the current fiscal year or two subsequent fiscal years has not changed by more than two percent since first interim projections.

District's Revenue Limit Standard Percentage Range:

4A. Calculating the District's Projected Change in Revenue Limit

DATA ENTRY: First Interim data that exist will be extracted; otherwise, enter data into the first column. In the Second Interim column, Current Year data are extracted; enter data for the two subsequent years.

4B. Comparison of District Revenue Limit to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. **STANDARD NOT MET** - Projected revenue limit has changed since first interim projections by more than two percent in any of the current year or two subsequent fiscal years. Provide reasons why the change(s) exceed the standard and a description of the methods and assumptions used in projecting revenue limit.

Explanation:
(required if NOT met)

2011-12 & 2012-13 reflect the most recent January Governor's budget proposal of \$330 per ADA + change in deficit factor resulting in an additional loss of \$19 per ADA. RL has been updated to reflect these changes and updated for changes in projected ADA. First Interim figures for multi year did not include the transfer out to Charter for in lieu taxes, therefore also reflected in second interim criterion standards report, but doesn't impact multi year or other areas of this report.

5. CRITERION: Salaries and Benefits

STANDARD: Projected ratio of total unrestricted salaries and benefits to total unrestricted general fund expenditures for any of the current fiscal year or two subsequent fiscal years has not changed from the historical average ratio from the three prior fiscal years by more than the greater of three percent or the district's required reserves percentage.

5A. Calculating the District's Historical Average Ratio of Unrestricted Salaries and Benefits to Total Unrestricted General Fund Expenditures

7. CRITERION: Facilities Maintenance

STANDARD: Identify changes that have occurred since first interim projections in the projected contributions for facilities maintenance funding as required pursuant to Education Code sections 17584 (Deferred Maintenance) and 17070.75 (Ongoing and Major Maintenance Account).

7A. Determining the District's Compliance with the Contribution Requirement for EC Section 17584 - Deferred Maintenance

NOTE: SBX3 4 (Chapter 12, Statutes of 2009) eliminates the local match requirement for Deferred Maintenance for a five-year period from 2008-09 through 2012-13. Therefore, this section has been inactivated for that period.

7B. Determining the District's Compliance with the Contribution Requirement for EC Section 17070.75 as modified by Section 17070.766, effective 2008-09 through 2012-13 - Ongoing and Major Maintenance/Restricted Maintenance Account (OMMA/RMA)

NOTE: EC Section 17070.766 reduces the contributions required in EC Section 17070.75 from 3 percent to 1 percent for a five-year period from 2008-09 through 2012-13. Therefore, the calculation in this section has been revised accordingly for that period.

¹Available reserves are the unrestricted reserves in the Designated for Economic Uncertainties and the Undesignated/Unappropriated accounts in the General Fund and the Special Reserve Fund for Other Than Capital Outlay Projects. Available reserves will be reduced by any negative ending balances in restricted resources in the General Fund.

2nd Interim reflects no negotiated items for 2011-12 and 2012-13 such as continued furloughs, salary roll backs and/or other items as listed on the "cut" list. 2nd Interim for 2011-12 and beyond does include the board's approved "cut" list. The approved cuts allows to restore Fund 17 & 20 (refer to Multi Year) which will be needed to balance out GF for 2012-13 such that we meet our DEU. Also continue to deficit spend. In Fund 17 we have funds from Fund 20, however they have been designated and in 2012-13 will need to undesignate a portion to meet minimum DEU level along with allocated to GF.

S8. Status of Labor Agreements

Identify new labor agreements that have been ratified since first interim projections, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues and explain how these commitments will be funded in future fiscal years.

If salary and benefit negotiations are not finalized, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards and may provide written comments to the president of the district governing board and superintendent.
