***Williams* Settlement – Willows Unified School District 2018-19 Glenn County Schools Deciles 1-3 Report**

October 18, 2018

In accordance with the *Williams* Settlement Legislation, California Education Code 1240 requirement, the County Superintendent of Schools must annually visit schools scoring in Deciles 1-3 on the 2012 Base Academic Performance Index and report observations to the Glenn County Board of Education. Two schools in the Willows Unified School District are ranked at Decile 1-3. Murdock Elementary ranked Decile 2 and Willows High School ranked Decile 2. A copy of this report has been given to the Glenn County Board of Education.

The purpose of the visits as specified in California Education Code Section 1240 is to:

1. Ensure that students have access to sufficient instructional materials in four core subject areas: English/Language Arts, Mathematics, History-Social Science, and Science.
2. Assess compliance with facilities maintenance to determine the condition of a facility that poses an emergency or urgent threat to the health or safety of pupils or staff: and
3. Determine if the school has provided accurate data for the annual School Accountability Report Card related to instructional materials and facilities maintenance.

The law further requires that the county superintendent to:

1. Annually monitor and review teacher assignments in 2012 Base API Deciles 1-3 Schools; and
2. Receive quarterly reports on Uniform Complaints filed with the school district concerning *Williams* issues of insufficient instructional materials, teacher vacancies and misassignments, and emergency or urgent facilities issues.

CLARIFICATION OF TERMS

- “Sufficient instructional materials” means every pupil, including English learners, has a textbook in the four core areas to use in class and to take home.
- “Facilities standards” means that each school district that receives state funding for facilities is required to establish a facilities inspection program and to ensure that each of the schools is maintained in good repair.
- “Good repair” is defined as maintaining schools that are clean, safe, and functional.

SUMMARY OF VISIT/OBSERVATIONS

The Glenn County Office of Education *Williams* Coordinator, Shirley Diaz, provides overall administration for the oversight responsibilities. Human Resources, Business Services, Maintenance and Educational Services all

provided personnel and expertise to fulfilling reporting requirements. The *Williams* team visited Murdock Elementary and Willows High School and met with administrators, teachers and staff to confirm materials sufficiency, facilities maintenance, and teacher assignments. In addition, the latest School Accountability Report Card was reviewed and determined that data regarding sufficiency of materials and facility conditions was accurately reported for Murdock Elementary and Willows High School.

Instructional Materials:

Murdock Elementary was able to demonstrate sufficiency of instructional materials for **only** Reading/Language Arts and Mathematics. One class set of Science and Social Studies textbooks was being shared amongst grade level teachers which does not meet the sufficiency of materials requirement. Additionally, using ELA curriculum for Social Studies and/or Science does not meet the sufficiency of materials requirement, nor does ELA curriculum sufficiently cover the California Adopted State Standards for NGSS and History/Social Science.

Willows High School was able to demonstrate sufficiency of instructional materials for each of the four core subjects (English, Mathematics, Science and Social Studies). Availability was determined by comparing enrollment numbers with actual textbooks in the classroom or by textbook purchase orders/inventories. Core subject textbooks were all current locally approved or state adopted materials.

School facilities:

During the annual site inspection, no emergency facility situations were observed. Both schools are in need of upgrades and updates. Murdock Elementary and Willows High School facilities are being maintained in a safe, clean, and functional condition.

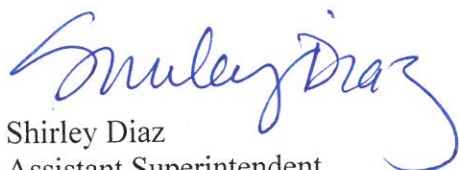

Teacher Assignments:

The County Office's ongoing credentials monitoring process has effectively incorporated the additional mandates of Williams legislation. Teacher assignment compliance reporting is made to the California Commission on Teacher Credentialing (CCTC). Upon review, Murdock Elementary and Willows High School have classes that have 20% or more English Learners and all teachers assigned to these classes are holding appropriate certification and authorization to teach English Learners. Willows Unified School District is to be commended for having appropriately certified teachers.

Uniform Complaint Procedure:

All school districts are required to provide a Uniform Complaint quarterly report to their governing boards and GCOE regarding *Williams* related issues. The required Uniform Complaint Procedure notice is posted in each classroom and in the school office.

The Glenn County Office of Education verifies that Willows High is compliant with all *Williams* Settlement legislation requirements. Murdock Elementary is out of compliance with Williams Settlement legislation requirements due to the lack of sufficiency of materials for Science and Social Studies. It is recommended that NGSS and Social Studies materials be secured to meet sufficiency requirements.
